PIANIST

Walter Robert First Artist Of Series

The Medina County Concert
Assn. has announced that Walter
Robert, concert pianist, will open
the season in Hondo on Sept. 30
at 8 p.m. with a performance in
the high school auditorium.

He will be presented in concert
here by William Z. Rozan of
Houston under the sponsorship of
the Medina County Concert Assn.

Two hundred season member-
ships have been sold up to now,
according to Rev. H. Ellis Thomas
and there are more obtainable at
\$6 for the five programs which
are to be given.

H. R. Burch will handle the ad-
vance sale of children's tickets at
the school. The Chamber of Com-
merce office will sell adult and
children's tickets in advance, and
individuals may also buy tickets
at the door. Single performance
tickets are scaled at \$1.50 plus
tax for adults and 50 cents plus
tax for children.

HERMAN SONS PURCHASE TWO AIRFIELD BUILDINGS

Two airfield buildings have
been purchased by the Hondo Sons
of Herman which will be remod-
eled to form their new building
at the corner of Hwys. 90 and

Tuesday of this week over \$1,400
had been banked and the Graffs
had many clothes. Joe's father,
Frank Graff, had a list of over
250 names who had helped out in
the emergency but the list in-
cluded none of those who had con-
tributed through the church.

The Graffs still have a long
way to go, so any of their friends
still wanting to assist them may
do so directly or through the
church or the legion.

Large S. A. Outfit To Become Hondo's First Industry

91 Acres, 66 Buildings In Transaction

Alamo Pottery, Inc., of San An-
tonio last Friday completed the
purchase of 91 acres and 66
buildings comprising "Commercial
Area A" of the former Hondo
Army Air Field and expect to
move their entire plant and of-
fices to Hondo within six months,
it has been announced by the
Hondo Chamber of Commerce.

Company officials have been in
Hondo this week looking over the
property and taking inventory,
and already have secured a list
of local workmen to do the re-
modeling and rebuilding. Work
will start as soon as possible after
the deed is delivered to the com-
pany on Oct. 5.

Negotiations for the property
have occupied the better part of a
month with various offices of
war Assets Administration coun-
teracting each other. Flight by
three Hondo C. of C. delegates
two weeks ago for a conference
with Sen. W. Lee O'Daniel in
Fort Worth apparently turned
the trick, for a week later the
sale was consummated for \$94,000.

The pottery company is en-
gaged with manufacturing vari-
ous products of the ceramics in-
dustry from small ashtrays, china-
ware and "gadgets" to large ar-
ticles such as household sinks and
bathtubs, according to reports.

About 225 persons will be em-
ployed by the company, and the
pay roll will amount to about
\$400,000 annually. Much of the
current personnel will come to
Hondo with the company, how-
ever since the move is primarily
to allow room for expansion it is
probable that many more will be
employed and the pay roll will
grow.

Coming of the pottery company
marks the first industry to come
to Hondo with a large pay roll
and the third enterprise to take
advantage of the airfield. Holla-
way Flying Service was first, fol-
lowed shortly afterward by the
opening of the swimming pool.

ACHIEVEMENT DAY SLATED FOR OCT. 17-18

The county-wide women's home
demonstration and 4-H girls'
achievement day has been set for
Oct. 17-18 in Hondo in the up-
stairs building formerly occupied
by W. T. Hardy Furniture Com-
pany. Various clubs are now plan-
ning for educational exhibits, and
for individual entries in the gen-
eral show.

Exhibits are to be arranged
and judged on Oct. 17, and will
be open for public inspection the
following day.

A flower show will be in con-
junction with the achievement
day exhibits and any woman or
girl in the county may enter.
Flower exhibits are to be judged
by accredited flower show judges
from San Antonio.

SOCIAL SECURITY MAN TO BE IN HONDO

"A CHRISTMAS WISH"
by
LYDA KOCH SCHWEERS

'Twas an Almond and a Raisin
In a dish all silvery bright
A Raisin dusky purple
And an Almond creamy white.

Said the Raisin to the Almond
I was once full of wine
As a Dewdrop is of Sunlight
And a glossy skin was mine.

Said the Almond to the Raisin
I also have a tale to tell
I was born inside a flower
And I lived within a shell.

Said the Raisin to the Almond
We are both from southern lands
As we come once more to-gether
Having fallen in very good hands.

Said the Almond to the Raisin
We are both not very well
Since you have lost your puices
And I have lost my shell.

Said the Raisin to the Almond
You may make a Christmas wish
That is why you always find them
Side by side in a Christmas dish.

SWING OF TEXAS MARKETS

Pronounced easiness prevailed on many farm markets last week according to the Production and Marketing Administration, U. S. Department of Agriculture.

Grains dropped sharply toward the close of the week, to net losses of 5 to 25 cents. Wheat, corn and sorghums suffered most, but oats and barley went along. Wheat closed at \$2.68 to \$2.69 at Fort Worth Friday, and white corn \$2.80 to \$2.85. Buyer resistance and smaller export allocations were given as weakening factors.

Rice brought lower prices last week, as official estimates indicated a record crop this year. Feeds kept up their spectacular price rises with gains of \$2.50 to \$8 or more per ton. Prairie hay strengthened, and alfalfa held firm. Peanut harvest became general in Central Texas and started even farther north. Large quantities of Texas and Territory fine wools sold at slightly higher prices.

Late-week cotton losses all but liquidated early advance of around \$1.50 higher for the week. Demand for most favored grains and staples continued good, but spot sales decreased.

Cattle price weakened radically late last week, after gaining early in the period. Some markets still netted small advances, while others marked down values as much as \$1 or more. At Houston, common and medium cows ranged from \$12.50 to \$14.75; while Oklahoma City paid \$12.50 to \$15.50, and Wichita \$13.50 to \$16.50. San Antonio bought common cows at \$13 to \$14.75; Fort Worth took cutter and common at \$11.50 to \$14.50, and Denver moved common to good at \$15 to \$19.60.

Hog prices fell 50 cents to \$1 or more for the week. San Antonio held steady at \$27.75 for top butcher hogs, while Fort Worth dropped 25 cents to \$28.50. Closing top was \$29 at Oklahoma City and Denver, and \$28.50 at Wichita.

Slaughter lambs closed the week slightly lower at Fort Worth, Oklahoma City and Wichita, but other sheep markets stayed about even with a week earlier. Medium to good spring lambs sold from \$18 to \$21 at San Antonio, and \$15.50 to \$18 at Fort Worth. Good and choice grades brought

Mr. and Mrs. George Klaus and son, Mr. and Mrs. Benjamin Wiemers and children, Curtis and Kathleen of Bandera.

Mr. and Mrs. Otto Wiemers and daughter, Laura, and Mrs. Katie Muennisch visited Mr. and Mrs. Marvin Muennisch at Yancey Sunday.

Mr. and Mrs. Charles Jacobson of Macdonia visited Mr. and Mrs. John Muennisch Sunday.

Mr. and Mrs. Arnold Lindeburg and John Lindeburg were in San Antonio last Thursday.

Mr. and Mrs. Willie Boehle visited their daughter, Mrs. Stanley Philips, at Hondo Monday evening.

around \$23.50 at Wichita, and \$25 at Denver.

Onions sold firm, and cauliflower moved sharply higher last week at Colorado shipping points. Cantaloupes and watermelons continued in liberal supply at Denver, where prices dropped on spinach and green and wax beans. At Kansas City, cantaloupes from Colorado and Kansas sold in a wide range of prices according to quality. St. Louis saw rather slow trading, with prices mostly lower except on peaches, carrots and cauliflower. Louisiana sweet potatoes fell. New Orleans found trading good.

Eggs remained firm to slightly stronger last week, and poultry scored small advances at some markets. New Orleans paid 32 to 34 cents per pound for heavy hens and 42½ for fryers and broilers. Most other markets bought heavy hens at 24 to 26 cents and young chickens from 32 to 38. Most eggs came from storage or the North.

ALL-PULLET FLOCKS MORE PROFITABLE

When considered from every angle, there can be little doubt that an all-pullet flock is more profitable than one consisting of birds of various ages. The fact that more and more poultrymen are turning to the all-pullet idea is based on several important factors:

The Advantages

1. Pullets lay more eggs over a year's time than hens.
2. Pullets lay more eggs when eggs are at the highest price level—in the fall and winter.
3. The cost of feeding a pullet for the 6-month growing period is about the same as the cost of feeding a hen during her 4-month molt—and, at the end of the growing months, you have a pullet representing four pounds of meat and dozens of high-priced eggs, instead of just an old hen with a new coat of feathers.
4. There is less danger of disease outbreaks and, therefore, lower mortality among all pullet flocks.

High Price Eggs

Remember that when egg prices are highest in fall and early pullet flocks are just reaching a high production rate while hens are molting or taking a rest. No poultry raiser likes to spend money on valuable feed for hens which aren't producing.

Hens often carry such diseases as tuberculosis, cholera, pullorum and coryza—another good reason for raising pullets separately from older birds. Mortality rates in all-pullet flocks run from three to five per cent lower than in mixed flocks.

We are glad to answer your poultry questions—just come in or write us.

THIS IS TEXAS' MILLIONTH TELEPHONE!
Making the first call is Mrs. Gunter W. Koetter, pretty war bride from Luxembourg. Looking on are Mr. Koetter, Houston architect and veteran of 4½ years of Army service, and 14-month-old Jay Koetter.

SOUTHWESTERN
BELL
INSTALLS

Millionth
TELEPHONE
IN TEXAS

SOUTHWESTERN BELL'S millionth telephone in Texas was installed late in August in the home of a Houston architect, his Luxembourg war bride, and their 14-month-old son.

Mr. and Mrs. Gunter W. Koetter had been waiting for a telephone for many months.

And, like many another Texas family, the Koetter's new telephone is on a four-party line until telephone factories and installation crews can catch up with Texas' post-war needs for telephone service.

When the millionth Texas telephone was installed, no one was happier than Mrs. Koetter. Said she: "I can hardly believe I'm going to have a telephone of my own. Back in my native Luxembourg, only the very rich can afford telephone service."

INSTALLATION of the millionth telephone is a historic milestone and a far cry from Texas' first telephone, installed in 1878, connecting Col. A. H. Belo's office at the Galveston News with his nearby home!

Less than 10 years ago—in 1938—Texas had only half a million telephones!

On V-J Day—just two years ago—Texas had 750,000 telephones!

Thus, Texas has added as many telephones in less than 10 years as were installed in the previous 60 years! And despite postwar shortages, we've gained more telephones in Texas in the two years since V-J Day than were added in the 10 years preceding the war!

Yet—despite this record, 137,000 Texas families and business concerns are now on the waiting list for telephones. Although we're installing service several times faster than ever before, it has been impossible to connect telephones as fast as Texans are applying for them.

With Texas poised to be growing with Texas. And, we're hard at work on the biggest telephone expansion and improvement program in the history of the state. We shall continue to do everything within our power to bring telephone service, as early as possible, to everyone in Texas who wants it.

OWLS TROUNCE BURNET 19-7; TO MEET HEAVY HILLBILLIES AT FREDERICKSBURG FRIDAY

Suddenly finding themselves in their second game of the new season after looking poor even in victory against Sabinal, Hondo's Owls changed completely last week from a bunch of football players to a smooth-functioning machine that rolled over a fair Burnet eleven 19-7 and would have scored more had it not been for a number of fumbles that proved costly.

Curtis Braden led the running attack, blossoming out into the threat Hondo had been hoping for, and John Earl Boon gave indications that before very long he will be an outstanding distance passer in the entire district.

Curtis Braden scored all three of the Owl touchdowns. In the

Hondo's Owls will play their second consecutive game away this week and when they journey to Fredericksburg to meet Coach Chester "Smeky" Klaerner's Hillbillies.

The Hillbillies opened their season with a 7-0 loss against San Marcos when the latter scored on the last play of the game, and last week were thoroughly trounced 29-0 by New Braunfels. Starting line-up averages about 169 pounds, about 10 pounds heavier than the Owls, and the team has been riddled by early season injuries to several key men. Two backs, Tanner and Dietrich, are lettermen from last year's District 32-A champions, but so far have been unable to do much behind a weak line.

Still, the Hillbillies are heavy and have potential power. That potential might be realized Friday when they meet the Owls. Every team is dangerous until the final whistle, especially the one that looks weak.

first half he made a sensational 52 yard return of a Burnet punt for one touchdown, and for the other he took an excellent pass from J. E. Boon and scampered 30 yards for the score. In the third quarter Braden, Boon and Carle joined in a concerted drive with Braden lunging over for the score. Burnet made its lone tally in the last period.

Burnet scored only one first down during the first half, adding about three in the second half, while the Owls drove for over 10 first downs in the game.

TEXAS TECH—A. & M. GAME SATURDAY IN SAN ANTONIO

Evenly rated by the Saturday Evening Post, Texas A. and M. and Texas Tech will renew their five-year gridiron rivalry in Alamogordo Stadium, Saturday night, Sept. 27 before an expected 22,500 sell-out crowd of Southwest Texas football fans.

The advance sale already has reached the 14,000 mark, Krueger said, with the two schools, their alumni and mail orders accounting for more than 11,600 tickets before public sale started on Aug. 27.

Still available are 8,500 \$2 reserved seat tickets. These tickets may be purchased through the mail by writing the San Antonio Chamber of Commerce.

Castro Licks D'Hanis Cowboys By 18-8 Score

D'HANIS — The D'Hanis Cowboys opened their 1947 football season Friday afternoon when they met the Castroville Comets on the D'Hanis field at 3 p.m. The starting line-up consisted of Matt Koch, captain; Kenneth Anderson, John Henry Poerner, Jerry Raney, Hugh J. Wolff and Pat McGraw.

On the side lines the pep squad under the sponsorship of Miss Vivian Birly, assisted the Cowboys with its cheering. The girls have chosen Martina Nester and Norma Wolff as cheer leaders. They will soon make their appearance in attractive new uniforms.

The following report is by the sports editor of "The Voice":

The D'Hanis Cowboys, coached by Supt. J. M. Slavik, unveiled their 1947 edition of football against the Castroville Comets and came out on the short end of an 18-to-8 score. Despite the loss, however, the showing of the team indicated that there was nothing wrong that a week of hard practice will not cure.

Castroville got off to an early start with a long pass good for a score. After that the Castro boys went on to score twice more in the first half. In the second half fine defensive play by Quarterback Matt Koch, Elton Lutz, R. S. Schmidt and John Henry Poerner prevented further scoring on the part of Castroville.

The Cowboys themselves tallied in the third period when Matt Koch passed to Hugh J. Wolff after Elton Lutz had galloped 40 yards to set up the score.

On Friday, Sept. 26, Knippa will play at D'Hanis.

Yancey Tigers Defeat Big Wells Bulldogs

YANCEY—Last Friday the Big Wells Bulldogs invaded the lair of the Yancey Tigers with high hopes of taking Tiger hides back home. The game was fast, clean, exciting but one sided. When Bulldog hair and Tiger fur quit flying the scoreboard showed Yancey 54 Big Wells 0.

Each Tiger stood out as an individual star. Long passes were completed, end runs won yardage and line bucks carried far.

Yancey elected to receive and made a touchdown in five plays. Elroy Ward going over for the score, Craig Wilson easily converted for the two points. Big Wells received and fumbled on the third play. From then on the Tigers were masters of the game.

The first team, composed of Sterling Martin, center; Lloyd Hardt, right end; Clinton Fasel, left end; Auda Vee McCrea, right half; Elroy Ward, left half; Craig Wilson, fullback, scored with ease and showed splendid teamwork and mastery of each play. They will go far this year. The second team saw action in the game and played like veterans. This team is composed of Tony Kempf, Wilbur Wilson, Homer Martine, Bobby Heiligman, Robert Bohmfalk, Coy Muenink, Larry Evans, all good material for the future.

The Tigers are well coached by Supt. W. H. Taylor and will be hard to defeat. They play Barksdale there Sept. 26, Oct. 3—open; Oct. 10—Natalia, there; Oct. 17—La Pryor, here; Oct. 24—Knippa, here; Oct. 31—Catarina, there Nov. 7—open; Nov. 14—La Coste here.

Lloyd Hardt and Sterling Martin are cocaptains.

kin snagged passes from Meyer for two touchdowns. Devine's single tally was made by Schneider.

Another Hondo back, Abundio Gonzales, did a lot of work for the Owls and showed up as one of the best backs on the field. In the Hondo line, Saathoff, Gilliam, Laughinghouse and McWilliams looked especially good on defense.

The Owlets will meet Uvalde there next Thursday, Oct. 2, and on Oct. 9 they will open district play at Devine.

Owlets Trounce Devine 32-6

Hondo's Owlets won their season opener here in Hondo last Thursday night convincingly when they triumphed over Devine 32-6.

Newell Woolis scored two touchdowns for Hondo on running plays with Roy Meyer crossing the goal line once. Mike Lar-

NATIONAL VIEW OF COMMUNISM AND MUNISTS

is wise who heeds wisdom whatever source it issues. We are more stupid than they let prejudice blind them to the warning because they are its spokesmen.

Never much he has done—to our mind it is plenty—to edit himself in the minds of thinking people, it would be for us all to give heed to this, latest enunciation of Henry A. Wallace.

"Communism," said he, "is not a way of life, but Socialists and communists have a right to their views and the right to express them. I have nothing against communism in the United States. It does not work to overthrow government by force."

Whatever contempt we may have for Wallace's practice of using the money of all tax-payers to pay some producers of cattle, hogs, of cotton and grain for slaughter and destruction under government compulsion—an act of waste worse than any we ever heard charged against Communism—this county had spared itself a lot of trouble, could we accept unreservedly his attitude toward the twin that now have our country.

It is a ghost dance certain cunning politicians have instituted to distract our minds from the deplorable mess they have made of us into—a mess from which we are either unable or unwilling to extricate us?

The form of propaganda waged against Communism has every appearance of being of that type. As Wallace says, the Communists and the Socialist has every right to hold to such opinions and to exercise those rights, in an effort to achieve his ends—even to change our form of government, so long as he does it in a legal way as provided by the Constitution and does not attempt to maintain the exercise of force. Held within such legal bounds and restraints, the Communists constitute just another political party, advocating their forms of government just as legitimately as

Texas papers listed below are used as news sources, and from them The Anvil Herald reports the news in other localities. Unless specifically attributed to another paper, views and opinions expressed below are those of The Anvil Herald.

TWO ACCIDENTS

The Jourdan highway in Atascosa County was scene of two accidents in three days last week, according to the Pleasanton Express. Travis Bingham and his daughter were injured when a soft drink beverage truck side-swiped the wagon in which they were riding, and Mrs. Adem Ormand and two children were cut and bruised when a truck hit their car.

QUARTER HORSES

First show of the newly organized Southwest Texas Quarter Horse Show Association is slated for Nov. 15 in Uvalde. John H. Weimers of Hondo, owner of a quarter horse beauty out of famous Joe Bailey, is one of the directors of the group.

BAND FOR SABINAL

Sabinal High School will soon have a band, reports the Sabinal Graphic. The band will begin practicing within a short time with Almon Martin, minister of the Sabinal Christian Church, acting as director. Does anyone know of another school in South Texas more than half the size of Hondo that does not have a band?

FLYING FARMERS

Strong's Flight Service of Pearlsall is inviting all farmers in that area to free flights over their land, says the Pearlsall Leader. The flights have proved valuable in finding lost cattle and in giving farmers a picture of their land all at once.

NEW HOSPITAL

Uvalde and Rock Springs were two of the 62 communities given top priority for allocation of funds for a hospital building program to

be aided by federal funds, according to the Uvalde Leader-News. A meeting of the Commissioners Court, the hospital directors, and Uvalde citizens was held Monday night this week to make plans for the program.

PLEASE DON'T BOTHER MR. WEYNAND ABOUT THAT TRACTOR, IT'S SOLD

W. A. Weynand came in to see us last week. It seems he had told us to take out his ad for a tractor that he was selling, and we forgot.

People were still asking him about it after it was sold—the first week the ad ran—and he was getting tired of telling them the tractor had already been sold.

Weynand said that he had sent it in to a radio program, but didn't get any results, so decided to put it in the paper. He tells us that people surely must read the paper closely.

MRS. HARRISON WILSON WINS \$5 PRIZE

Mrs. Harrison Wilson of Yancey won a \$5 award on an article that she submitted to the "Prize-Winning Program Ideas" section of the Agenda, a magazine for women's club leaders.

Her entry, on picture framing, was printed in the September edition.

IT'S A GIRL FOR THE HABYS

County Clerk and Mrs. Howard Haby are the parents of a 9-pound 9-ounce daughter born Thursday morning, Sept. 18, in Medina Hospital. The young lady has been named Linda Sue.

Linda is the first grandchild of Mr. and Mrs. Dan Biediger of Castroville and Mr. and Mrs. Elmer Haby of Dunlay.

Anvil Sparks

Let the Sparks fly where they will, for the truth is forged with fire!
Let the Sparks burn where they fall, for the truth is not for hire!

By The Editor

Senator W. Lee O'Daniel came and went this week without telling Hondoans and others of the county who came here to hear him whether he was going to run for an office or which one if any.

But we didn't care.

We had a royal welcome mat out for the venerable "Pappy" which included no bands or \$35 neckties. It included, simply, a good barbecue out at Toby Taylor's where he was entertained the way we usually entertain our friends.

Because Pappy is more than a senator to us—he is a friend. Regardless of what we think, individually, of his politics or policies, he is the one person who has shifted weight around in high circles to help us.

He gave us the kind of help we needed. It wasn't the political kind of help, where one area tries to beat out another area for special considerations; he helped us in cases where we had things com-

ing, within our grasp, belonging to us, when we found ourselves unable to pull them in.

He helped us in acquiring the air field, and last week he came through with pressure to straighten out the WAA boys who were keeping an industry from coming here where they wanted to come.

We can't help the senator much with votes, since our county economists dispense with primaries where the real election battles occur (it's cheaper that way), but we could eliminate the foolish fanfare and invite him in to a good friendly meal and into one of our homes for the night.

The senator knows that all of our local politics are called "independent," because that way we don't have to bother with primary elections. Still he helped us.

There are many opinions about any politician. But W. Lee O'Daniel has proven to Hondo that he is our friend.

The honor of being sworn in by General Jonathan M. Wainwright as one of his last official acts before retirement as Fourth Army commander at Fort Sam Houston, Texas, August 31, was afforded M. Sgt. Rudolph M. Eichorn, 26, shown above as he enlisted in the U. S. Regular Army. The ceremony took place

in the General's office in the historic Quadrangle at Fort Sam Houston. Previous to his separation from the service on August 20, 1947 at Fort Lawton, Washington, Eichorn served as Captain with the 6th Infantry Division in Korea. Deciding that the Army offered greater opportunities than civilian occupations, Eichorn has chosen the Army as a permanent career.

M. Sgt. Eichorn has been assigned to the San Antonio U. S. Army and Air Force Recruiting District, and will be on recruiting duty at Crystl City, Texas.

A brother, Pvt. Augustus Eichorn is serving with the Army Military Police in Berlin, Germany.

Letter To The Editor

747 W. Kirk Place
San Antonio, Texas

Dear Sir:
Enclosed is to cover the sending of your newsy weekly for another year. My subscription started sometime back in 1900. That was before the venerable Journalist and editor, Mr. Davis, handled the controls of the Anvil Herald.

I read with much interest the life of the Anvil Herald as given by Mr. Davis. Did he mention that the Farmer's Alliance once was owner of that "Farm Journal"? My father once owned the controlling stock and sold the plant for \$200. That was a cash transaction hence no legal proceedings executed. I have often wondered why my father didn't give the plant to me! What an opportunity was lost of making a writer and journalist rather than a lowly, modest pedagogue.

I like the news and editorials; your advice and admonitions are worthy of consideration. Your precepts mean much toward cementing the ideas of the community and inspiring the people for nobler deeds and greater achievements.

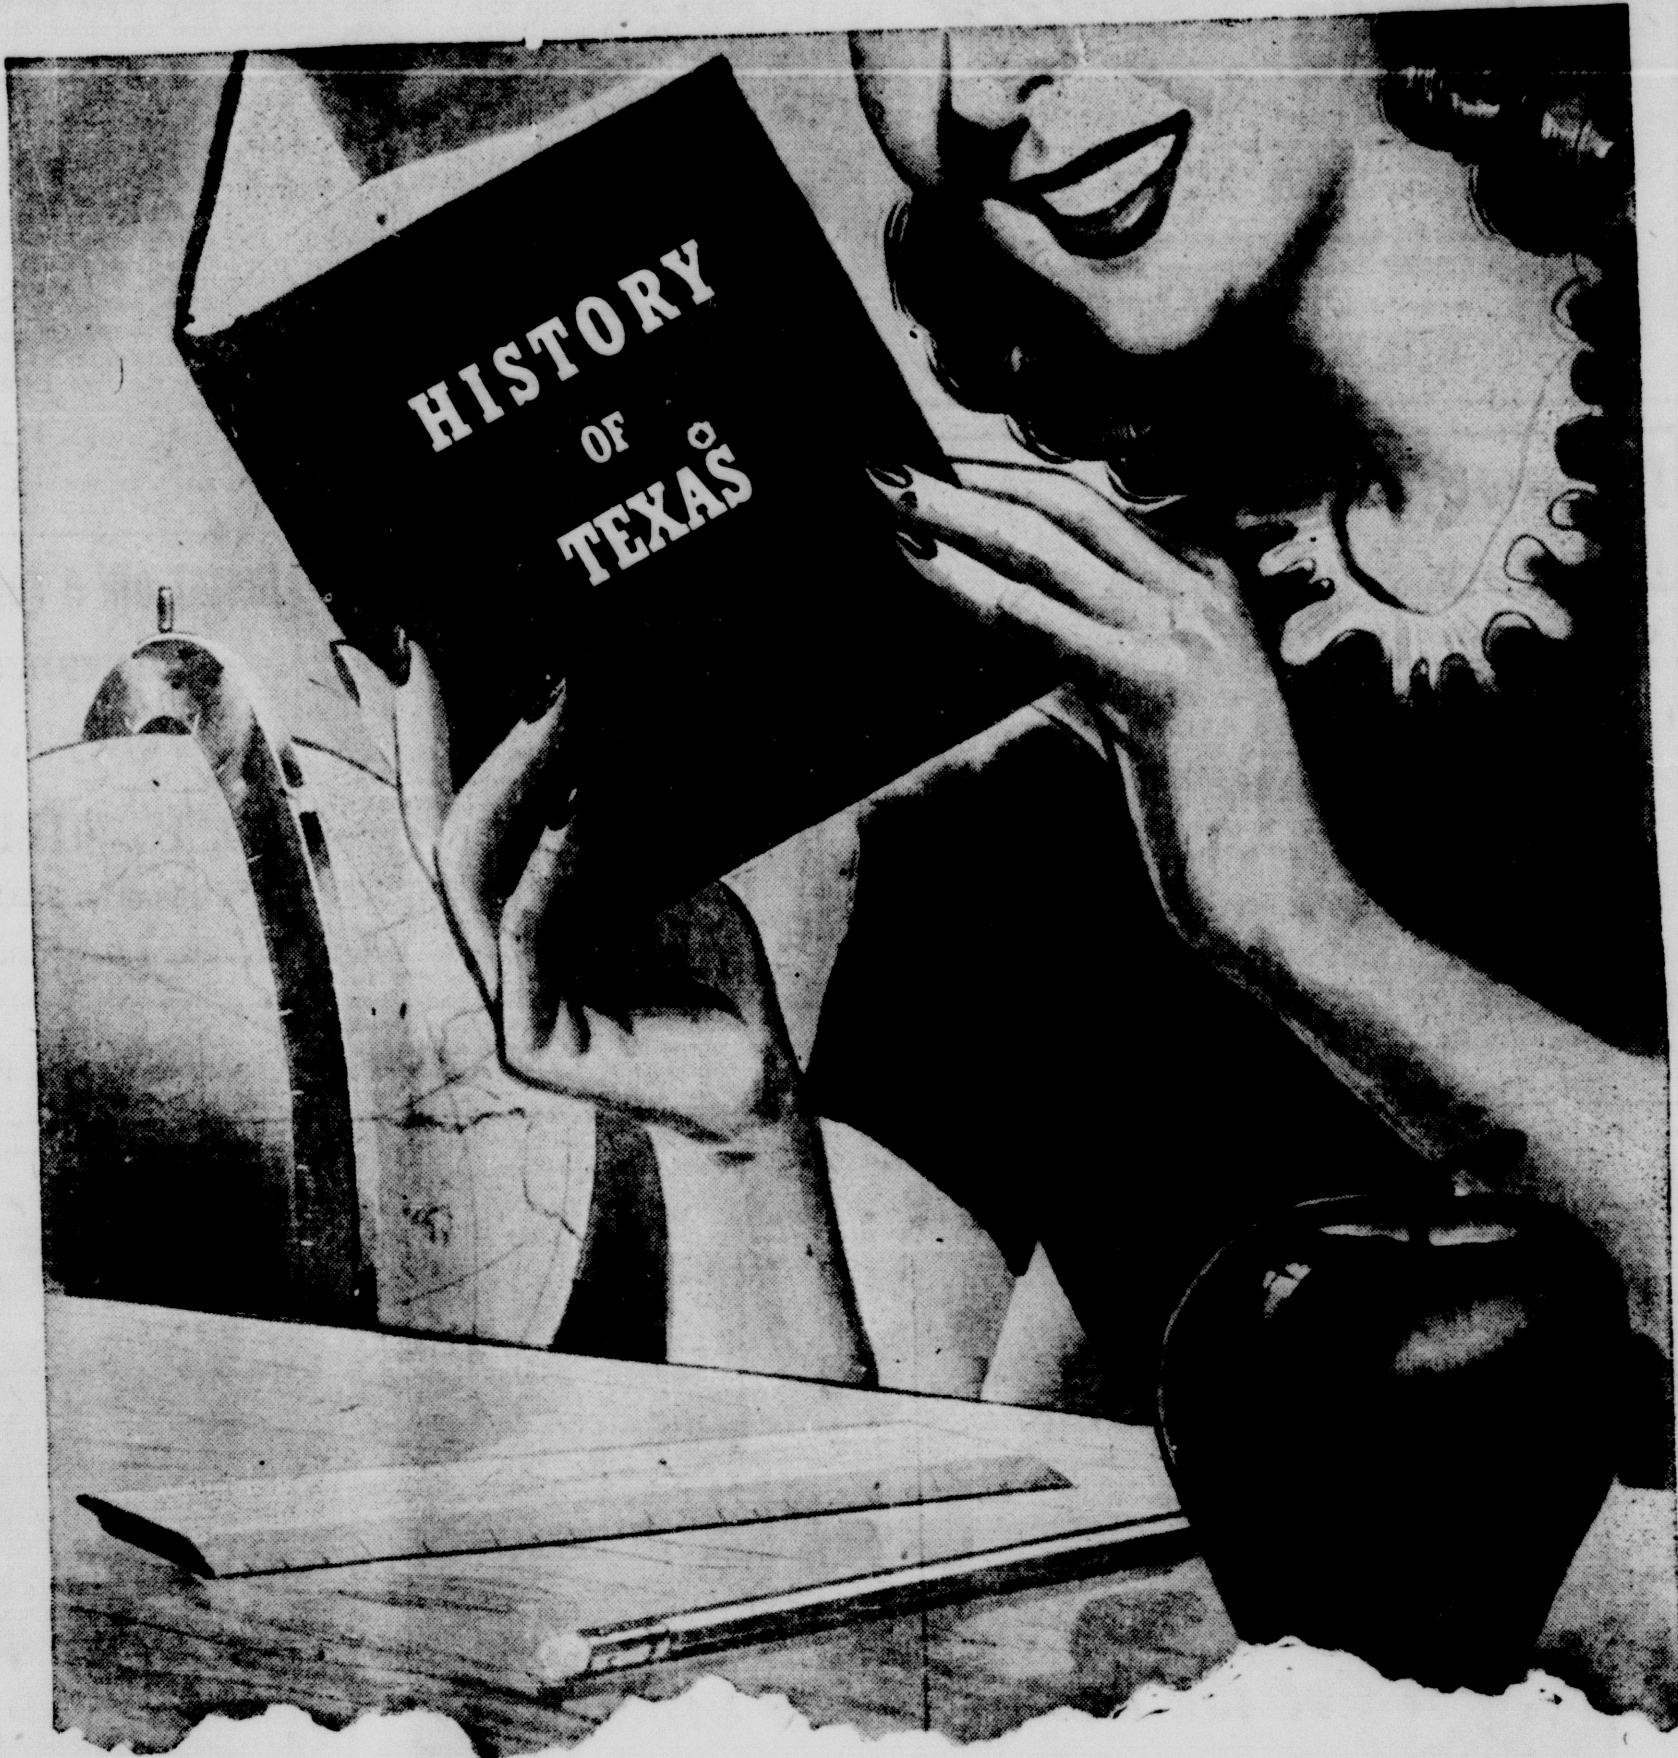

Sincerely yours,
W. N. SAATHOFF

Safe hands guard the future of Texas

They're kindly hands—stern when needed—but understanding always. They are hands of Texas teachers, hands in which lie the future citizenship and culture of our state. These are the hands which conserve the glorious traditions, the manners, the customs and knowledge of the past.

But knowledge is of little value unless it can be put to use for the benefit of mankind, and it is the responsibility of our teachers to give it that value. So, too, other groups in

the state give value to many of the things we hold most dear.

United Gas gives value to a natural resource that might otherwise remain worthless in the ground. By providing a market for natural gas, by constructing pipe lines between wells and consumers, United renders a great service to the state. This is practical conservation, for it gives value to this finest of fuels, stimulates industrial development, creates jobs, and benefits all the families in Texas.

Auto Title and Registration Laws Changed by New Code

NEW MOTOR MUST BE RECORDED ON TITLE

Changes in title and registration laws made by the Fiftyth Legislature will sooner or later affect all owners of motor vehicles, Texas Highway Department spokesmen say.

A number of these new laws become effective Sept. 5.

After that date, for example, the Texas Highway Department will be required to charge a fee of \$1 for assigning motor numbers to new or reconditioned motors. A similar fee was ordered for serial numbers on house trailers.

The growing practice of installing new and rebuilt motors, some bearing no identification number, demands a strict accounting of both motor and serial numbers on vehicles to assure valid titles in the name of rightful owners.

New laws outline a procedure giving maximum protection to legal owners of all motor vehicles. When motors are exchanged, the vehicle owner must apply promptly to the Texas Highway Department for a correction of his certificate of title. Otherwise the title to his vehicle is clouded because its motor number does not correspond to his title, an awkward situation to handle when he tries to sell his car.

If the new or reconditioned motor bears a manufacturer's number, it should be used. If it is blank, as many are nowadays, the purchaser must apply direct to the Texas Highway Department at Austin for an assigned number.

Forms for this application may be obtained from any County Tax Collector's office. It is illegal to stamp any number on a motor other than a number assigned by the Highway Department.

A new service has been provided for Texans who wish to take delivery on a new vehicle at the factory or from a dealer in another state. Temporary license plates for the exclusive use of buyers while driving their new car back home are now issued under another of the Fiftyth Session's new laws.

Suggested by Highway Department officials for the convenience of purchasers wishing to drive the new car back from the factory.

the new law eliminates many thorny legal technicalities formerly incident to the practice.

Temporary plates, good for 30 days, can now be secured without delay at the County Tax Collector's office, and carried to the factory or other out-of-State delivery point. The owner may secure certificate of title to his new car and regular registration plates after returning to Texas.

Nietenhoefers Back From Long Trip

Mr. and Mrs. Christian Nietenhoefer and daughter, Corine, and Mr. Elbert Wiemers returned home Wednesday from a 2,000 mile trip visiting relatives, Mr. and Mrs. G. E. Hardt and Mr. Nietenhoefer's sister, Mrs. Ida Bohlen and other relatives in Warren, Arizona.

They also saw other places of interest such as Bisbee, which was quite unusual to see, as the houses are built one almost on top of the other on the mountains. From there they drove to the divide where one can look all over the town.

They also visited the Wonderland of Rocks which they said were very beautiful, and on the way home they went to New Mexico to go through the Aclisbad Caverns.

Little Cynthia DePuy, nine-year-old daughter of Mr. and Mrs. R. W. DePuy, Hondo, this week was enrolled for the 1947-48 school year in San Marcos Academy, a private school for boys and girls from the first grade through high school.

A former student of the Hondo school, Cynthia first entered the Academy in September, 1946, and is now in the fourth grade.

Funny thing, Doc's favorite prescription to his patients is: You ought to have fun. The pace of modern living, even on the farm, demands some relaxation.

And as Doc says—fun is a personal thing. For the missus it may mean a movie or a good book; for Dad, a mellow and refreshing glass

of beer; and for the kids, parched or the radio. Doesn't mean everybody has to like the same thing—so long as they relax, have fun, together, in the home.

Doc doesn't have much time himself. After a hard day, he'll relax before the fire with a glass of beer—and wait for the phone to ring again. And from where I sit, Doc deserves each well-earned minute of that relaxation.

Editor's Corner

It may not show much yet, but things are different in Hondo this week.

Then again, maybe it does show. The weather is cooler and windier than it was last week, our Owls are functioning like champs and the street paving is progressing nicely.

Hondo is different. Its first industry has come. Alamo Pottery, Inc., will soon take its place in the business life of Hondo and Medina County and for the first time a big, industrial payroll will make its influence felt in the industrial life of the town.

This is our first industry. Will there be more? We are the ones who can answer that question. It seems illogical that all our county broomcorn should be shipped to other places to be made into brooms. It seems illogical that the vast facilities of our airport should sit and rot. It seems that Hondo would be a logical and favorable point for an aerial Port of Entry from Mexico. It seems that Hondo would improve its opportunities by fighting for a Leakey-Corpus Christi highway to pass through our city.

Are we working hard for these things that will build our town? Or do we just notice them and forget them?

We are working on some things to better our town from within. Our Chamber of Commerce has some nice plans for the near future on how to improve our city. And this week a group of young businessmen of Hondo met for the first time to organize and gain for themselves a voice in what happens in their city, a group that will eventually develop into a Junior Chamber of Commerce.

We all find plenty to criticize in this, our town.

Many of us are here because we were born here, many others of us are here because we want to be here, making the choice of our own free will. In any event, it is our town and it is for us to shape it for our generations to come.

So we all criticize. If all who criticized would also act, our town would progress rapidly. But many do it just for the sake of criticism itself, and such people only obstruct.

Hondo is young, as an incorporated city. It was only five years ago that Hondo became a city legally. We have done a lot since then, and in these early stages things are hard to do.

Our schools need a lot of improving. No high school this size should be without a band—a school band adds greatly to a city as well as to a school. And if some of us insist that we need every boy for football, why not an all-girl band? In any event, a band. And our school needs more room to handle its students, it could stand some intramural athletics, some journalism, some more personnel.

Our taxation needs revising. If people are willing to own lots that can sell for \$2,000 they should be willing to pay taxes on that value, not on a tenth of the real value as we are doing right now. Then, if the school needs something, it will not have to sell advertising or ask donations.

But these things will change.

We're getting into gear now. We have a lot of modernizing to do, especially in our business district, which still resembles that of a village. But our chamber is functioning, our city council is functioning, and we have a new group of Jaycees coming.

Things are different here in Hondo. Different in the right way.

mustash and for all you folks who really want to know the truth it was really just a strike against the hi cost of living and it ain't there no more becuz it happens his wife is now a school teacher and she got her first pay check as the first thing she did was go down town and buy a few bars of soap which she took home and the next day this lawyer didn't have nothing on his upper lip at all except a bunch of lip so you can see from this that when the cost of living cums down there will be lots of guys quittin tryin to palm off their five a'clock shadow on whippersnappers.

I wuz down town this week and I seen this guy ben graff and he is smoking a quarter cigar an listenin to a juke box however I would like to point out that ben does not always smoke quarter cigars becuz sometimes he finds one that is almost whole however with prices goin up all the time it is getting hard to find them very long because it seems folks is smokin 'em shorter now and as butts about it well anyway ben ben drinkin a few root beers which because of the root shortage he had been takin without the root an he wuz tryin to put a stamp on a letter he wuz going to mail but he didnt want to lick the stamp because the taste might impress the taste of the root beer which because of the root shortage he was taking without the roots and he wuz havin trouble wut with the stamp not stickin and he kept talkin about the damp stamp wuz wuz silly becuz the stamp wuz damp at all but still he kept kickin becuz the damp stamp wouldn't stick but I dont know I guess people are just funny.

Fletcher Davis

(Continued from Page One)

the average family with an income of \$50,000 would enjoy an increase of 18.6 per cent and a \$500,000 income family an increase of 62.3 per cent. This is the usual half truth which the new dealers used so effectively for so many years.

"Had President Truman completed his analysis here's what he would have had to show: At the present time the \$2,500 family is paying \$95 a year in income taxes; the \$50,000 family \$24,111; and the \$500,000 family \$906,600.

"This means that the Government takes 3.8 per cent of the net income of the \$2,500 family, leaving it 96.2 per cent as take home pay; it takes 48.2 per cent of the income of the \$50,000 family, leaving it 51.8 per cent; and it takes 81.3 per cent of the income of the \$500,000 family, leaving it 18.7 per cent as take home pay."

In a similar vein, Columnist George Beck quotes from a message from the late President Grover Cleveland and adds his own comment in point:

Said Cleveland: "When more of the people's sustenance is exacted through the form of taxation than is necessary to meet the just obligations of the government and expenses of its economical administration, such exaction becomes ruthless extortion and a violation of the fundamental principles of free government."

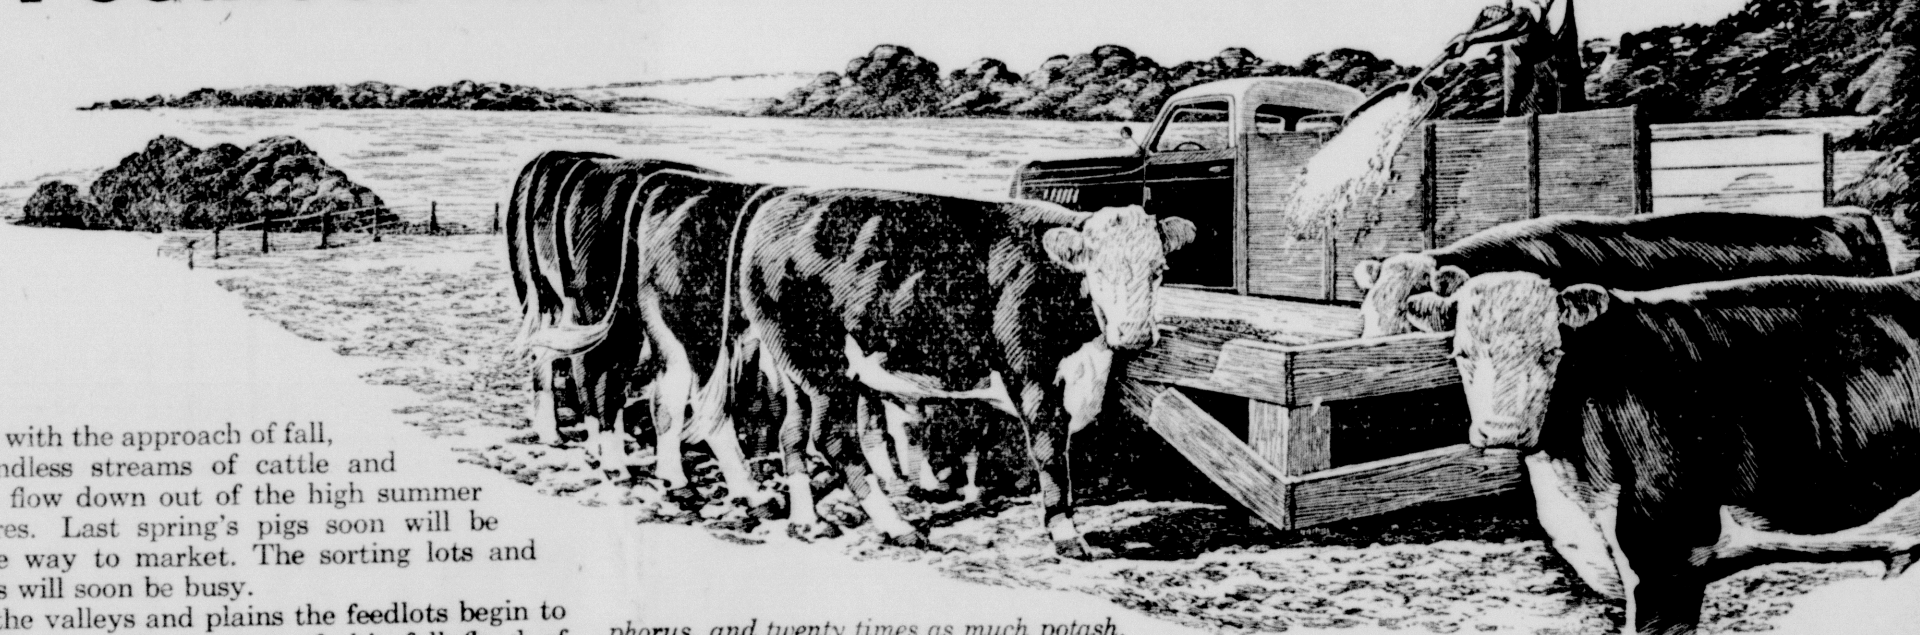

Says Peck: "At this time, when America is faced with the necessity of feeding a great portion of the world's population, were Cleveland alive, he would demand that the whole attitude of government toward business be changed. He would contend that this would allow production to rise, from which would come increased national income, out of which the government could tax at a lower rate and still obtain all the money it needed."

And still in line George S. Benson advises:

"If we would like to increase inflation and have more dollars in our pockets but be able to buy less with them, then we should encourage a high federal budget, high federal taxes, and still higher wages. All these things have an inflationary influence on our economy. If we want a solid economy, where dollars will buy more and we can actually live better, then we must do these things:

"(1) Work for lower taxes, which would leave more in the purchasing stream and would stop discouraging investment in new industries and new tools for workmen, (2) Oppose the high budget with extravagant federal spending, and (3) Work for stable industrial relations. Industry, labor, agriculture, and all other American groups should understand these facts. With shoulders to the wheels we must work for a stabilized America that can lend stability to a confused world."

Feedlots Are Food Factories

Now, with the approach of fall, the endless streams of cattle and lambs flow down out of the high summer pastures. Last spring's pigs soon will be on the way to market. The sorting lots and corrals will soon be busy.

In the valleys and plains the feedlots begin to fill. They dam back some of this fall flood of animals... You who feed livestock know well how important this is. You realize that it helps avoid periods of glut and scarcity, by stretching out, over months, the time of marketing. You know, too, how such year 'round marketing serves to lessen big "feast-or-famine" price fluctuations. And who should understand better than you how the feedlots of America add millions of pounds to the nation's meat supply?

Feedlots save for the land much of the fertility which the selling of grain crops and hay would take out of the land. For example, you sell a steer that has gained 500 pounds in your feedlot. You are selling off your land only about 12½ pounds of nitrogen, 3 pounds of phosphorus, 1 pound of potash, which his body has absorbed out of your feeds. But suppose you were to sell as cash crops the grain and hay which you put into that steer. Then you would deplete your soil of about seven times as much nitrogen, four times as much phosphorus, and twenty times as much potash.

Keeping the soil fertile through use of manure from livestock is only one factor in judging whether "feeding" is likely to be a profitable venture. There are many others which are being constantly studied by individuals, colleges, and experiment stations. In every feeding area they are trying out new rations, watching costs, plugging "leaks," developing more efficient feeding techniques. So if you are feeding livestock, or are considering it, it may be worth your while to consult your county agent, vocational agriculture teacher, or state agricultural college. Ask them what they have that's new in up-to-the-minute feeding information... maybe you'll find some new wrinkle that will lower your costs, increase your profit possibilities.

OUR CITY COUSIN

Asks little cousin, city-born, "Do Indians use wigwams of corn?"

How many Meat Packers?

Here's an interesting thing to note. There is, on an average, more than 1,000 miles between the point where livestock is raised and the point where the meat products are eaten. Largely because of this 1,000-mile gap, national meat packers came into being.

The small meat packers buy livestock locally, slaughter and sell meat in the territory surrounding their plants. In addition to this service, nationwide organizations are equipped to do another big job—and do it economically. They perform the service of moving dressed meat the long distances from areas of production to large consuming areas where relatively little livestock is produced. These areas of great meat consumption and small meat production depend upon nationwide meat packers, like Swift & Company, for a large part of their meat products. Livestock-producing areas also depend on the large meat packers, as an outlet for the livestock their immediate market cannot consume.

Most livestock producers market their livestock at only one market. So they come in contact with only a few livestock buyers. Dealing with such a small number of firms leads farmers and ranchers, naturally enough, to the thought that there is only a small number of meat packers in the United States. Actually, according to the latest figures available, there are approximately 4,000 meat packers and about 22,500 other commercial slaughterers of livestock. Some slaughter millions of head per year. Others kill thousands of head annually, and still others only hundreds.

New "Slant" Saves Pigs

Farrowing pens with sloping floors are the answer to clumsy sows that step or lie on baby pigs. The slant of the floor takes advantage of the natural tendency of sows to lie with their backs uphill, while the tiny baby pigs tumble downhill safely out of her way. Used extensively in Kentucky, sloping floors have cut baby pig losses to only one out of thirty, according to W. P. Garrigus of the University of Kentucky. He writes:

"Crushing or crippling by brood sows is the chief cause of pig losses. Normally, one out of every five new-born pigs is doomed to be mashed or severely crippled by clumsy, awkward brood sows the first day or so after farrowing. This loss to the swine industry adds up to a staggering total. According to the United States Department of Agriculture, each pig killed at farrowing represents a loss of 140 pounds of the feed consumed by the sow during the gestation and suckling periods. Figuring two pigs killed to the litter, this loss in one year alone, 1944, cost hog men 75 million dollars.

"Very little of this tremendous loss needs to be tolerated. Three years of experimentation and observation of herd tests in Kentucky show that sows farrowing on sloping floors raised from one to four pigs more than when they farrowed on level floors. On 49 Kentucky farms where records have been kept, with 385 litters, an average of only one pig out of 30 farrowed has been crushed on sloping floors."

The College of Agriculture, University of Kentucky, Lexington, Ky., has detailed information on sloping floors for farrowing pens, instructions for building, etc.

Track Down the Facts

If you ever see tracks like this in the snow, dust, or mud, you'll know there's been a white-tailed deer around. An experienced hunter can tell from the tracks how long since they were made, the approximate size of the deer, and whether it was in full flight or quietly going about its business.

Deer tracking is considerably out of our line here at Swift & Company. But we do have a staff of trained fact hunters. Their job is to track down the facts which control our business operations. They study the U. S. Department of Agriculture figures on livestock supplies. They "track down," too, the demand for meat... what weights and grades housewives everywhere are asking for... what cuts they prefer.

Our "fact trackers" know full well that the price of livestock is governed by what the meat packer can get for the meat and by-products.
